Germany Land of Trusts.

The British consul at Frankfurt, according to a London cable to the New York Sun, reports that Germany has become the land of the syndicate. He says that though some giant trusts in the United States may enjoy greater power than single trusts in Germany there is no doubt that syndicates in Germany are more numerous than anywhere else. There is hardly a branch of trade the members of which are not combined for the regulation of prices or output.

STRUCK CANNING FACTORY.

Railway Engine Hits Building and Causes Damages of \$100,000.

Janesville, Wis., Aug. 26.—A Northwestern railroad engine and a box car plunged through the Janesville canning factory plant tonight. The building was made of brick and just finished at a cost of \$150,000 and is now in ruins. The engine struck a big water tank which fell lengthwise of the building and crushed it. Thirty million tin cans were smashed and all the costly special machinery, engine and boilers were crushed. The loss will reach over \$100,000. The plant was just finished and ready to start Monday. The engineer and fireman left the engine and car on a grade 100 yards from the building to determine where to put the car. They ran away down grade, jumped the track and went through the end of the building. No one was injured.
